WESTON ASYLUM.

THEY ARISE FROM PURE SPITE

THE STORIES OF ALLEGED MIS-MANAGEMENT COME FROM THE DEMOCRATIC EMPLOYES THAT SUPERINTENDENT STATHERS HAS GRACIOUSLY PERMITTED TO REMAIN-AN INTERVIEW WITH THE TREASURER OF THE INSTITUTION, WHO GIVES A RATIONAL EXPLANATION OF THE VICIOUS RUMORS.

Special Dispatch to the Intelligencer MORGANTOWN, W. Va., March 3.-State Senator George C. Cole, of Weston. treasurer of the State Hospital for the Insane, has been in Monongalia county for several days, having come to attend tuneral of a relative. To an inquiry by the Intelligencer correspondent concerning the charges being made by the local Democratic organization of Lewis county and the Democratic press of the county and the Democratic press of the state against Superimendent Stathers and other officials of the asylum, Senator Cole said: "The charges are wholly false and unwarranted, and are being spread broadenst at this time for political purposes. Unpredudiced observers of the present administration of affairs at the asylum are unanimous in the spinion that Dr. Stathers is a thoroughly competent superintendent, and his sub-ordinates are capable and faithful officials.

ordinates are capable citals.

The charges of brutality in the treatment of patients are made during every administration, and must, from the very nature of the employment of the attendants, arise more or less frequently. It occurs almost daily that patients become victous, and violently assault their attendants. In one or two instances I could cite, attendants have been seriously injured before aid could reach them. In such cases attendants must protect themselves, and are compelled to use force in dealing with the patients.

datalls with which the charge The details with which the charges have hen given the public makes it ovident that some of the employes have given out the data. In order that the service might be more efficient, Dr. Stathers retained as attendants a number of Democrats because of their experience, instead of yielding to the pressure brought to hear for the appointment of Republicans to those positions.

"It is suspected that the Democratic cost has evident the repundance for its suspected."

gotten the groundwork for its rom these Democratic attendcharges from these Democratic attend-ants, who have seized upon every little flaw and grossly exaggerated it. If such is the case it would have been better or the asylum service if all of them had

#### GOLD SECRET KNOWN.

Ch'eago Man Gives his Formula for Making the Yellow Metal-Says it is a Success

Chicago Inter Ocean: Anybody who has the necessary materials and a furtace that will produce a temperature of at home and make his own gold with-

nanager of the National Metallurgical Company, which has a plant at Lowe avene and intry-initialized for the purpose of manufacturing gold and silver, said yesterday that in consequence thating secured all rights to their process by patents applied for, all over the world the operations of the company would no longer be conducted in secret. The precious metal factory, in which operations were resumed last night will hereafter be conducted in as matter that a manuer and as open it fact a manner and as open to inspection as those of any well-cted manufacturing establish-Mr. Brice sees no reason now is formula should not be given to while. Here it is:

Take of chemically pure anti-

and expose to a white heat, or

metallic mass and the resulting lead will be gold and silver.

There is not a particle of truth in the statement that our meeting Monday right was a stormy one, or that there was a contest between the large and the small stockholders. It is not true that the meeting was adjourned until today. The fact is that 125 stockholders attended the meeting; that they represented 4,570 shares out of a total of 7,500, and that they were so completely satisfied with the financial statement submitted and the way things in general have been conducted that the vote upon every question was unanimous. There was not a dissenting vote. The meeting was called to vote ways and means for certain improvements necessary here and at the antimony mines in Utah. The amount required is \$25,00, and that sum was unanimously voted."

In proof of what he said Mr. Brice

tion. The amount required is \$29,tion, and that sum was unanimously
voted."

In proof of what he said Mr. Brice
exhibited the minutes of the meeting
and the high sheets of all, the votes
taken, which showed unanimous assent
ten the part of the stock represented at
the meeting.

"We have been ridiculed and misreptesented," continued Mr. Brice. "by rejotters who were 'fused information
about our affairs which it would have
been injurious to have given out. For
instance, the closing down of our plant
in January was published as the collipse of the enterprise. The fact is
that in wirster time, from the lack of
roads and other facilities, we could not

in Utah that our supply will be unin-

In Utah that our supply will be uninterrupted.

"Since the close-down we have erected a new furnace of my invention, which will enable us to do our own refining and also to treat a large quantity of refractory ores which have hitherto defied our efforts,"

"Is your process a commercial success?" was asked.

"A complete success," was the reply.
"By recent improvements we have succeeded in making ore which yields \$1,500 to the ton in gold and silver. I want to eay further that there is not a share of this stock on the market. The total amount realized by the sale of stock has been only \$1,540, which has been used in the erection of this plant and in securing mining claims. I held originally 1,170 shares, and have purchased since \$50 shares, which cost me \$5,462. E. R. Kosh, of Penryth, Va., who was my original partner during the long experimental stages of this process, against my wishes and advice, put 200 shares on the market last September, and it was this offering which brought upon me, my process, and the whole concern the newspaper ridicule tember, and it was this offering which brought upon me, my process, and the whole concern the newspaper ridicule which followed. As the commercial process is now fully protected and the volcanic heat required can only be attained in my furnaces, which are also fully protected, no further mystery will be made of the manufacture of gold and silver from the bare metals.

"Robert W. Hunt & Co., the leading metallurgical chemists of this city, made an independent test of my for-

"Robert W. Hunt & Co., the leading metallurgical chemists of this city, made an independent test of my formula last April under the most rigorous conditions, and in reporting on the test to Lyman J. Gage, secretary of the treasury, they said this: Following Mr. Brice's formula we obtained both metals. In the test just completed the results were: Gold, 3.10; silver, \$1.04 per ton. The investigations were conducted under the personal supervision, participation, and constant presence of the writer, and absence of outside parties.' The report was signed by Robert W. The report was signed by Robert W. Hunt, the head of the firm."

### SOBRAL SAILS.

The Spanish Suob Says He is well Conten

NEW YORK, March 2.-Lieutenant Commander L. S. Sobral, former naval attache of the Spanish legation in Washington sailed to-day on the steamer La Bretagne of the French line, for Havre. Many members of the Spanish colony in New York were at the pier to

In anticipation of Lieutenant Com-mander Sobral's departure, the junta patriotica Espanoia sent a cablegram to the minister of the navy in Madrid as file minister of the navy in Madrid as follows: "The junta Partiolica Espanola of the United States regrets the departure of Lleutenant Commander Sobral. His partiolic and valuable services are highly appreciated by the Spanish colons." Spanish colony

To-day a member of the Spanish junta handed to Lieutenant Sobral the reply of the minister of the mayy. It

read as follows:
"I have to thank you for your telegram regarding Lieutenant Commander Sobral, whose return to Spain has been ordered that he may render her service."

Just before boarding La Bretagne, Lieutenant Commander Sobral said to a representative of the Associated Press that he has been misunderstood. "I have no remorse," he said. "My con-science is clear, I sail contented."

spain's Reported Purchase of Ships LONDON, March 2.-It is impossible to verify the report that Spain has raised the necessary funds for the purchase ed the necessary funds for the purchase of three Chilean warships, which are said to have been on the market for some time. The Spanish government naturally will not admit that it has ever lacked the funds to purchase necessary ships and nothing is known here officially or in shipbuilding circles. The Armstrongs, who are building the three battleships have heard nothing of the report.

## The Sure La Grippe Cure.

There is no use suffering from this dreadful malady, if you will only get the right remedy. You are having pain all through your body, your liver is out all through your body, your liver is out of order, have no appetite, no life or ambition, have a bad cold, in fact are completely used up. Electric Bitters is the only remedy that will give you prompt and sure relief. They act directly on your Liver, Stomach and Kidneys, tone up the whole system and make you feel like a new being. They are guananteed to cure or price refunded. For sale at Logan Drug Co.'s Drug Store, only 50 cents per bottle.

### FINANCE AND TRADE

The Features of the Money and Stock Markets. NEW YORK, March 3 .- Money on call

steady at 2@21/2 per cent; last loan 2 per cent. Prime mercantile paper 3%@41/2 per cent. Sterling exchange easier, with actual business in bankers' bills at \$4 841/2 for demand and at \$4 82@4 821/4 for sixty days. Posted rates \$4 83 and \$4 85½. Commercial bills \$4 81½. Silver certificates 55½@56½c. Bar silver 54c. Mexican dollars 45c.

certificates 55½@56½c. Bar silver 54c. Mexican dollars 45c.

Some of the bull traders bid up prices of stock specialties this morning and carried the general list with them in an effort to renew the bull campaign. But there was no outside interest and the efforts of the leaders were not seconded. The market drifted listlessly for the rest of the day, some times up and some itmes down and had some part of the early gains remaining for most stocks at the close. Buying of New York Central in the last half hour on the receipt of the news from Albany that the assembly had passed a measure assuring the legality of the bond issue necessary for the consolidation of the Lake Shore caused a stiffening. There were long periods during the day when business was almost stagnant and prices moved very sluggishly. The market was in the hands of small traders and reflected no condition of general business beyond the feeling of uncertainty regarding the Cuban question. Large operators and the general public are evidently out of the market by reason of this same uncertainty and the room

dination of the Bank of England to minish its supply. Conditions in the oney market remained unchanged.

ices were pretty well maintained in bond market, but the volume of ings showed a very marked de-se, from the recent average. Total s, \$2,200,000. lited States 4s and 5s were 1/2 per

cent lower bid to-day.

The total sales of stocks to-day were 224,100 shares.

Evening Post's London financial ca-

The stock markets here were

nant to-day except for Americans and Grand Trunk which were dealt in speculatively. Americans closed about the best. BONDS AND STOCK QUOTATIONS.

Breadstuffs and Provisions.

CHICAGO-It was an irregular market in wheat to-day. July was strong though dull and closed at an advance of 4c. Reports that Spain had reduced the duty on grain and ordering to the continent of California cargoes afloat were factors. May was strong for a time, but selling by interests who have been disposing of it for two weeks ulti-mately had its effect, the close showing %c decline. Corn and oats were dull, but strong, and closed %@%c and %@ 14c higher, respectively. Provisions were also firm and advanced 10@224c. Wheat started with a decided up turn

in July, that option opening 40% o higher at 914091%c, The bullishness was apparently still prevailing and enough of the early news favored buyers to give the mar were moderate, Minneapolis Duluth reporting 273 cars, against

ment in values ensued, July advancing to 91% and May to \$1 05%. After 11 o'clock the trade quieted down a great deal. There was a general slacking of the buying demand and prices slowly dropped. Reports that the President had been informally advised that the Maine explosion was from without created additional easiness around the mon hour. May especially showed weakness. Selling of that option by a firm which has sold heavily for two weeks was again prominent all day and made that end of the market rather loggy toward the close of the session. After mid-day, howevel, July again showed some snap. It had in the meantime declined to 91%c, but under a brisk govering demand, and some outside buying, prices were sent up to 91%c. Near the close realizing mostly by professionals became too heavy for the dull market to stand up under and a gradual decline took place, July finally getting back to 91%c, where it closed. May slid off to 31 66 and closed at that figure.

Corn was strong though not especially active. Offerings were very scarce and shorts had some difficulty in covering, resulting in a good advance in prices. On a little reaction, the top figures, the buying became quite general, outside support being given the market, and the close was strong. Shorts and local professional buils were the best buyers, commission houses doing most of the selling. May ranged from 30%c to 20%c, and closed ½6%c higher at 30%c.

The market for oats was fairly active and a good deal of strength was shown.

30%c. The market for oats was fairly active

The market for oats was fairly active and a good deal of strength was shown. Strength of corn and wheat induced some buying by shorts and with light offerings prices advanced easily. Fle-vator people were good buyers. May ranged from 2 to 25% (25% c, and closed % 6% be ligher at 26% c. Provisions were very strong though trade was rather duk. A firm hog market started prices higher, and under good buying by shorts and outside people, the market advanced steadily. The demand became quite urgent near the close. May pork closed 22% higher at \$5 20, and May ribs 10c higher at \$5 27%. Estimated receipts Friday: Wheat 55 cars; corn 575 cars; oats 200 cars; hogs 22,000 head.
